About

Passionate about technology, science and innovation. I have a background in the biotechnology's field, now I am dabbling to the IT world, I trained as a Full Stack Developer and I am strongly oriented to Frontend and Web3 development and UI design. I am the type of person who seizes every opportunity to learn something new.

Projects – Academic Experience

CodeNet

Frontend Developer | HENRY Labs – Final Project | Nov 2021

Participation in an agile development team with one-week sprints that present to a Product Owner the progress in the development of a social network application with design and development of the following features: User login, search bar, uploading posts and challenges for developers, filter by tags, live chat and notifications, dark themes, customization of the profile, admin dashboard to ban posts or users for inappropriate behaviour, donations (USD & Crypto) to support the development of the page.

Pokemon App

Full Stack Developer | HENRY Labs – Individual Project | Oct 2021

Pokemon web project that allows the user to view information about different pokemons, with the possibility of knowing more details about each one, filtering them by type, name or strength. You can also create a pokemon and test your knowledge with a guess Pokemon game.

Experience

SoyHenry

Full-Stack Teaching Assistant | Sep 2021 – Nov 2021

Bootcamp Assistant (TA) for Full-Stack Development Students

- Coordinate a group of students to achieve integration to the study group.
- Guide students in the first steps of the course
- Assist to solve exercises and promote group collaboration
- Propose ideas to improve the Bootcamp processes

IIB-Intech

Research Project Intern | Jan 2019 – Oct 2019

I worked as an intern on a Developmental Neurobiology research project. This experience helped me a lot to improve Soft Skills such as teamwork, perseverance, active listening and critical thinking.

Education
